

United Converting Inc. Added to Stik-II Products Family

In October 2003, Stik-II Products added another company to its family: **United Converting, Inc.** UCI is a master converter and distributor of foam tape and sealing products produced by some of the finest manufacturers in the marketplace today. With UCI, Stik-II Products can now source, convert and supply any pressure sensitive tape or sealant you may require. Foam tape products including PVC, neoprene and urethanes, Very High Bond (VHB) tapes, Teflon tapes, butyl tapes, aluminum tapes and duct tapes are only some of the tape products we now offer. We also supply rubber extrusions (standard and custom profiles) and a range of sealants (silicones, polyurethanes, latex and butyls).

At Stik-II Products, our goal is to become the single source for all your tape and sealing needs. We also provide custom coating and converting capabilities to meet specific requirements.

Contact us at **800-356-3572** for a product quote or if you would like to discuss a custom solution for your application.
